**➔ THREE THINGS You Should Know:**

**1** The Arts Federation will present the 2022 TASTE of Tippecanoe on Saturday, June 18 from 6 pm to midnight! For over forty years, the TASTE has been downtown Lafayette's largest, annual street festival. Join us in celebrating the area's best local food, music, and art. In addition to our usual lineup of beats and eats, we'll be transforming the streets of downtown with a live light show and video projection performance from 9 pm - midnight. \$5 Early Bird Tickets Available Until May 1! Buy your tickets now and save! Advance tickets are on sale now, and the price will increase to \$7.50 on May 1. Gate admission will be \$10.

**2** Meet the Trapp family and congratulate them for making it into the Guinness Book of World Records. Scott and Krissy Trapp, their two daughters, Savanna and Molly and their son, Adam, of Esko, MN have been officially declared the world's tallest family, according to the Association of Mature American Citizens [AMAC]. Collectively, the family has an average height a tad more than six-feet, eight-inches. Mom measures 6 feet, 3 inches. Dad is 6' 8" tall, 27-year-old. Daughter Savanna is also 6' 8" in height and her sister, 24-year-old Molly, grew up to be 6' 6" tall. But their brother, 22-year-old Adam, is the tallest member of the world's tallest family at a whopping 7' 3" in height.

**3** It appears that Indiana senators are going with party lines in regard to the vote on President Joe Biden's nominee for the Supreme Court of the United States, Judge Ketanji Brown Jackson. Sen. Todd Young had already indicated his no vote and Tuesday, Sen. Mike Braun said he would as well. "Today I met with Judge Ketanji Brown Jackson to keep my promise to treat this nominee with respect, and we had a good conversation," Braun said. "I previously voted against Judge Jackson due to her activist judicial approach, and based on her record on the federal bench and her answers on issues raised in the committee hearings, I will vote against her nomination on that basis again."

Did you know that, since October 2021, the U.S. Department of Education (Department) has approved more than 2,100 borrowers in Indiana for almost \$125 million in federal student loan forgiveness based on certain changes the Department made to the Public Service Loan Forgiveness (PSLF) Program? In fact, federal student loan borrowers in Indiana have been approved for—on average—nearly \$60,000 per borrower in forgiveness.

Indiana has lost more than 85 percent of its wetlands – important natural infrastructure that buffers communities against flooding, absorbs carbon pollution, and provides habitat for vulnerable birds and other wildlife. Today, in recognition of American Wetlands Month, Audubon Great Lakes released findings from an Indiana state-wide poll, which shows that Hoosiers, overwhelmingly, do not want wetlands protections weakened.

## Friends Like Angel

This time of year still hits me hard. It is the anniversary of the death of my best girlfriend, Angel, who died too young and left an Angel-shaped hole in my life.

"Can it be six years?" I ask my husband, Peter, in disbelief. Angel died at 50 years old, six years ago.

In the years since she died, I have tried to fill the spot she occupied without success. I expect new friends to be like Angel, and this is, of course, unfair. I expect they will be willing to listen to whatever mad idea has entered my head at any hour of the day. I expect them to type as fast as they speak and keep up three conversations at once—usually with people on different sides of the globe.

While I considered Angel my best girlfriend, I had no illusions that she felt the same about me. Angel was rich in friends. There was no limit to her ability to support and encourage and cajole and occasionally berate her legions of friends into being more hopeful and less gloomy and better able to face the very particular challenges of their lives. Angel floated into and over so many lives. I was just lucky to be one of them.

Of course, she was no angel.

I remember her boyfriend, Alain, discovering she had thawed out all the baguettes he had been saving in the freezer. He was enraged and at a loss for words.

"She is not perfect!" he finally exploded.

This was not news to anyone who knew her. We did not seek her out because she was perfect. We sought her out because she was so unbelievably real.

There was no experience she would dismiss out of hand, no passion she did not think was worth exploring, no body of knowledge she felt was beyond her depth. Art and cooking and politics and string theory and Disney movies and bad '80s rock 'n' roll and fashion and trashy novels and whatever else the person she

**CARRIE CLASSON**  
The Postsript

happened to be talking to was interested in—this is what Angel was interested in. She tried everything. She was the first to admit she was wrong—and she frequently was. But it never discouraged her from experiencing another thing, learning a bit more.

Today, I felt a little wicked.

I spoke the truth to a friend. I told him he had hurt me and that I didn't want to put up with his nonsense anymore. It's the sort of thing I don't often do. Usually, I tell myself how lucky I am and how much easier things are for me than for some people and how I should just forget about the slight. This time I did not. I felt a little guilty, I confess.

And I heard Angel laughing.

Angel would chide me for being so anxious, so careful, so worried about things—things that were never worth worrying about in the long run. She was all about speaking her truth. She was all about getting her needs met without shame or embarrassment. She has been dead for six years, and she is still teaching me. She was bigger and freer and more lively than any person I've known, which is why it is so hard to accept that she is no longer alive.

I don't need another friend like Angel, because there are no other friends like Angel. Besides, the goal was never to replicate her. The goal was to try—in my cautious, nervous, high-strung way—to become a bit more like her.

Till next time,  
Carrie

## The 'Liberty Defense' GOP Insurgency Was A Dud

**BRIAN HOWEY**  
Howey Political Report

Here's how the Liberty Defense races ended:

HD7: Sarina Williams lost to Rep. Jack Teshka, 48.8% to 18%.

HD20: Heather Oake lost to Rep. Jim Pressell 65.6% to 34.5%.

HD21: Stephen Gray lost to Rep. Timothy Wesco 84% to 15%.

HD22: Rep. Curt Nisly lost to Rep. Craig Snow 73.1% 26.9%.

HD31: Andy Lyons lost to Rep. Ann Vermilion 73.9% to 26.1%.

HD33: Brittany Kloer lost to Rep. J.D. Prescott 58 to 42%.

HD47: Luke Campbell lost to Robb Greene 19.4% to 47.9% while 29.9% voted for Rep. John Young.

HD41: Liberty Defense endorsed candidate Richard Bagsby finished third with 28% in a race won by Mark Genda with 42.6%.

HD54: Melissa Meltzer lost to Cory Criswell in this open seat, with Criswell getting 39.6% while Meltzer had 11.3%.

HD56: Mark Pierce lost to Rep. Brad Barrett 74.1% to 25.9%.

HD57: Melinda Griese-mer lost to Craig Haggard 66.7% to 33.3%.

HD60: Brittany Carroll lost to Rep. Peggy Mayfield 64.2% to 35.8%.

HD62: Greg "No Bull" Knott lost to Dave Hall

56.7% to 43.3%.

HD72: Jackie Bright Grubbs lost to Rep. Ed Clere 50.2% to 36.7%.

HD78: Sean Selby lost to Rep. Tim O'Brien 66% to 34%.

HD79: Russ Mounsey lost to House Republican Majority Leader Matt Lehman 66-34%. Lehman had sponsored the House Republican pandemic response legislation vetoed by Gov. Holcomb.

HD81: David Merver lost to Rep. Martin Carbaugh 65.3% to 34.7%.

HD88: Chrystal Sisson lost to Rep. Chris Jeter 74.9% to 25.1%.

HD90: David Waters lost to Rep. Mike Speedy 82.1% to 17.9%.

HD91: David Hewitt lost to Rep. Robert Behning 61.8% to 38.2%.

HD93: Rep. John Jacob lost to Julie McGuire 61.1% to 38.9%.

The Liberty Defense campaign was based on the notion that House Republicans weren't conservative enough. The results revealed that voters thought most incumbents were sufficiently conservative.

A classic example was State Rep. Mayfield, who in 2013 was named a "Defender of Liberty" by the American Conservative Union. She was perplexed when I moved her race from "Likely" to "Leans" in her favor after the House Republican Campaign Committee made about \$3,000 in late expenditures on her behalf. "I've always been told the hardest election is your first, the second hardest is your first reelection and the third is after new maps," she said. "Over 50% of my district is new so there is a variable of the unknown at play. And never under-

estimate the power of the pissed off voter."

Of the four Liberty Defense "victories," Sen. Byrne had been elected three times in local races, Rep. Borders had held HD45 for most of the past two decades, Sweet had held office, and Hamilton County Councilman Fred Glynn had also won outside the label. Glynn had a six-vote lead over Suzie Jaworowski in the open HD32.

In Sen. Byrne's defeat of Sen. Boehnlein, the victor's allies said that Liberty Defense had nothing to do with it. Harrison County Republican Chairman Scott Fluhr told me, "While there were plenty of factors in Gary Byrne's defeat of Kevin Boehnlein, the Liberty Defense organization wasn't one. Gary Byrne wasn't on their pre-election endorsement list and received no support from them. If they are saying that now, it might be post-election revisionism to make their rather sorry record look better than it actually was."

As for Gov. Holcomb, who has been under attack by the far right for his pandemic-era restrictions as well as his veto of a transgender athletics bill (the governor maintains it was a poorly-written bill that confronted a problem that didn't exist), he pointed to his 2020 reelection, where his 56.5% victory came with a record 1,706,739 votes. "Let's just review the facts: I ran a race," Holcomb said. "I received more votes than anyone that's run for governor in the history of this state."

## 2022 Chevy Equinox RS Mixes Cayenne Pepper With Vanilla Frosting

The 2022 Chevrolet Equinox is one of the best-selling crossovers in America, but it's not terribly exciting. It could use a bit of a makeover to attract younger and more affluent buyers. So, designers went to work to imbue a bit more attitude, adding cayenne pepper to the compact Chevy's vanilla frosting. The result is the Equinox RS.

Coming off of a refresh that saw all Equinox models receive revised front and rear lighting, the RS looks like an athlete ready for a good run. Sporty RS editions receive black chrome grille trim, dark window outlines, black logos, and 19" Dark Android alloy wheels. A brooding sinister aesthetic is the key, even when painted pearl white.

The RS reserves its best for the interior where it's dressed up

with black-and-red-stitched leather seats that are heated up front and face a heated red-stitched steering wheel. There's no fancy twin-panel sunroof, but passengers do enjoy Bose audio, dual-zone automatic climate control, and easy device connections through 4G Wi-Fi, Bluetooth, Apple CarPlay, and Android Auto. Chevrolet's touchscreens are easy to understand, but should come with a proper tuning knob. Click-clicking through stations with buttons is a bit much.

My parents owned two of the previous generation Equinox, which splits the difference in size between the current model and larger Blazer. Unlike in my parents' version, three-across seating is a little tight in the rear, but legroom and luggage space are plentiful. Split-fold rear

seats let longer items slide right in. There's always the roof if that's not enough space.

On paper, the RS' 1.5-liter turbocharged four-cylinder engine seems unimpressive with its 170 horsepower and 203 lb.-ft. of torque, but when connected to a six-speed automatic transmission and all-wheel-drive, it's plenty capable. Towing only rates 1,500 lbs., not enough to pull campers or boats of any real size, but fuel economy rates a relatively frugal 25/30-MPG city/highway.

There's a difference between being fast and being quick. Quick cars rip off 0-60 mph at a pace that crimps neck muscles, but fast cars can maintain high speed with reserved composure. The Equinox RS is not a quick car, but it is fast, able to ride a wave of

turbo torque into the left lane, click down a cog or two, and stream on down the road. The four-wheel independent suspension, quick steering, and narrow track make the Equinox feel much smaller and sportier than it actually is while rumbling over rough pavement with nary a squeak, creak, nor rattle.

Beyond competent handling, there's plenty of technology to protect everybody. Adaptive cruise

keeps a safe distance on the highway while automatic emergency braking with pedestrian detection, lane keep assist, rear cross traffic alert, and blind zone warning work whenever. No matter the conditions, the Equinox feels solid and robust - ready to take a crunching if necessary.

Nobody will confuse the Equinox RS with a sport wagon, but it adds enough spice to attract a younger and more

open-minded set. And, that's exactly the point. Even better, it's pretty affordable. A base Equinox costs \$25,800, but our well-optioned RS rose to \$37,015. With that, competitors include the Ford Escape Titanium, Subaru Forester Sport, Hyundai Tucson N Line, and Honda CR-V Touring.

# Sun And Water Safety

We finally got a taste of some warm weather which means it's time to starting thinking about summer activities. Most people enjoy a good day in the sun. Whether it's lounging by the water, participating in sports or working outdoors, we all get our fair share of sun every summer. This week, I want to briefly review some sun and water safety tips.

Sun and water safety are key things to be aware of as you venture outdoors. Everyone knows you can get a burn if you're out in the sun too long. However, many people don't realize that you can still get a burn in the shade or on a cloudy day. Ultraviolet rays come in two forms: UVA and UVB. UVA accelerates aging of the skin, while both UVA and UVB can cause skin cancer.

Sunscreen lotions work by absorbing the UV rays before they penetrate your skin and cause damage. They can be effective, but only if used properly. Dermatologists will all tell

**JOHN R. ROBERTS, M.D.**  
Montgomery Medicine

you it's safer and more effective to use physical blocking agents like sun-protective clothing and wide-brimmed hats.

Sunscreens are rated using the "SPF" scale. Don't bother with lotions with an SPF below 15. An SPF of 15 hypothetically allows you to stay in the sun 15 times longer before you burn. However, the effectiveness does not last near that long since the lotion usually wears off from sweating, swimming, or friction. Sunscreens should be applied liberally before going out in the sun (at least 2-3 Tablespoons per

application). They also need to be re-applied at least every two hours. It's important to get a broad-spectrum lotion that absorbs UVA and UVB. You should also use lip balm containing sunscreen.

There was a study in the Journal of the American Medical Association a couple of years ago that raised some concerns about four chemicals found in sunscreens: avobenzene, oxybenzone, ecamsule, and octocrylene. The chemicals, particularly oxybenzone, were found in the blood of the 24 study participants after applying the agents to 75 percent of their bodies four times a day for 4 days. The amounts applied in the study were about twice what would be considered normal in the real world. The FDA is requiring safety testing to determine if the increased levels have any adverse health effects. Current thinking is that the risk of sun damage to the skin is much higher than any health effects from these

chemicals in the bloodstream.

Try to minimize sun exposure between the hours of 10 a.m. and 4 p.m. when the intensity of ultraviolet radiation is highest. Sunburns suffered in childhood are a major risk factor for skin cancer later in life so model good behavior and teach your kids the importance of protecting themselves. Regular use of sunscreen in kids can lower their risk of skin cancer by around 75 percent.

Don't forget your sunglasses! While most folks apply sunscreen to their skin, they forget to protect their eyes. Ultraviolet radiation can cause damage to the lenses in your eyes leading to the development of cataracts. Be sure and read the tag on the glasses to make sure they're rated to block 99 to 100 percent of both UVA and UVB rays. Wraparound glasses are the most effective.

If you're in the sun, water often isn't too far away. An estimated 260 children under age five

drown each year in residential swimming pools and spas. Another 3,000 are treated in emergency rooms for submersion accidents that often lead to permanent brain damage. Nationally, drowning is the fourth leading cause of death in children under five.

If you have young children, you must NEVER leave them alone near a pool or in the care of an older child. It only takes a brief lapse in supervision to result in tragedy. Although most communities require only an automatic pool cover for safety purposes, you should also include a fence around the pool that has self-closing gates that is at least four feet high. If your kids are visiting a friend's pool, make sure the adults understand your kids are not to be left alone near the water. While swim lessons are advisable, they do not decrease the risk of drowning in kids under four. Flotation devices and swim lessons are not a substitute for adult supervision. Rescue equipment,

including a life preserver and shepherd's hook, should be kept near your pool. Have a cell phone or portable phone by the pool so you don't have to go inside and leave kids unattended. Know CPR and consider taking a lifesaving class if you own a pool.

When boating, skiing or tubing, always wear a personal floatation device (life jacket) approved by the U.S. Coast Guard. Remember that alcohol and boating don't mix. Half of all drownings are caused by boating accidents involving alcohol. If you must rescue someone in the water, don't become a victim yourself. Always remember the saying, "reach, throw, row, go." Try to first reach the person with an object. If you can't, throw something to them or maneuver a boat to them. Finally, as an absolute last resort, enter the water to try and reach them.

# THE GREAT MONTGOMERY COUNTY SCAVENGER HUNT 2022

## CURRENT CLUE

GEORGE FRUITS IS BELIEVED TO BE THE OLDEST SURVIVING LOCAL SOLDIER OF THE REVOLUTIONARY WAR. SOME HAVE FOUND PROOF AGAINST THAT BUT AN ADDENDUM TO HIS TOMBSTONE WOULD ARGUE THE POINT. WHERE IS HE BURIED AND WHAT DOES THE PLAQUE SAY IN REGARDS TO PROOF OF HIS AGE AND SERVICE.

## PREVIOUS CLUES

CLUE 1 - WHERE WOULD THESE NAMES BE FOUND IN CRAWFORDSVILLE AND WHY WOULD THEY BE LISTED TOGETHER? ZEPHANIAH BALL; JAMES R. CARNAHAN; ISAAC C. ELSON; SAMUEL B. FERGUSON; SMITH S. FRY; THOMAS W. FRY; JOHN P. HAWKINS; JESSE L. HOLMAN; LYCURCUS RAINBACK; ROBERT SPILMAN; SAMUEL C. VANCE; WILLIAM C. WILSON; JOSEPH M. WISHARD; AND A LOT MORE.

CLUE 2 - A SHIP WAS SUNK AND HOSTILITIES BROKE OUT. HUNDREDS OF MEN LOST THEIR LIVES AND NOT LONG AFTER THE UNITED STATES WAS INVOLVED IN A WAR. ULTIMATELY, THAT LED TO THE ERECTION OF A MONUMENT RIGHT HERE IN MONTGOMERY COUNTY. WHAT IS THE MONUMENT, WHERE IS IT LOCATED AND NAME ONE OF THE MEN INCLUDED ON THAT MONUMENT WHO FOUGHT IN THAT WAR?

CLUE 3 - FIND THE NAME AND PLACE OF A HOME WHICH SERVED AS AN INN AND HAD SEVERAL IMPORTANT VISITORS, INCLUDING WILLIAM HENRY HARRISON AND HIS MEN. THIS CLAPBOARD HOME EXISTED FOR CLOSE TO 100 YEARS IN OUR COUNTY AS A TRADING POST, TAVERN, POLITICAL AND CIVIC CENTER. IT WAS A PERFECT STOPPING PLACE BETWEEN TWO CITIES BEGINNING TO GROW AS IMPORTANT INDIANA CENTERS LAFAYETTE AND TERRE HAUTE.

CLUE 4 - IN A SMALL CEMETERY INSIDE THE COUNTY, A MAN HAS A UNIQUE WHITE-BRONZE TOMBSTONE WITH AN URN ON THE TOP. MUCH INFORMATION CAN BE FOUND THERE. HE DIED IN 1863 AND HE WAS 64 YEARS OLD. THERE'S ALSO AN UNUSUAL MESSAGE TO HIS FAMILY. "FAREWELL MY WIFE AND CHILDREN ALL, FROM YOU A FATHER CHRIST DOETH CALL; MOURN NOT FOR ME IT IS IN VAIN, TO CALL ME TO YOUR SIGHT AGAIN!" THERE ARE OTHER VERSES AND IMAGES. WHO DOES THE TOMBSTONE BELONG TO AND IN WHICH CEMETERY CAN IT BE FOUND?
