People who call our community their own.

Aaron Melvin smiles happily from China Inn while setting up Singo, a game of singing bingo for Thursday night family fun. Thank you for your smile, Aaron!

➔ THREE THINGS You Should Know:

1 Governor Eric J. Holcomb is directing flags in the State of Indiana to be flown at half-staff to honor and remember the victims of the horrific tragedy in Uvalde, TX. Per President Biden's order, flags should be flown at half-staff immediately until sunset on Saturday, May 28. Gov. Holcomb is asking businesses and residents in Indiana to lower their flags.

2 The Linden Library is ready to kick off its Summer Reading Program with the theme of "Oceans of Possibility". The library will offer various ocean-themed activities and host outside presenters as well. Visiting presenters will include the Lafayette Water Search and Recover Scuba Team, Purdue's Aquatic Community Ecology Lab, and Columbian Park Zoo. There will be crafts and fun for young kids as well as older kids; all are welcome. Programs will be held in Bulldog Park, located at 314 E. Water Street in Linden, at 3:30 on Thursday June 2, June 9, June 16, June 23 and June 30. The finale will be a Foam Party in Bulldog Park where participants who have logged their reading will be eligible for a Grand Prize Drawing. The foam party will be from 4:30 to 6 p.m. on July 7.

3 The notion that identical twins are of one mind and are always doing the same things at the same time is perhaps proven by sisters Jill Justiniani and Erin Cheplak of Anaheim, CA. The Association of Mature American Citizens [AMAC] reports that they each recently gave birth on the same day, in the same hospital to baby boys. Erin told Good Morning America that "throughout our pregnancies, it's always kind of been the run on joke between Jill and I and our husbands that the boys would come on the same day."

Student Raises \$1,000 To Support Friend

When Patty Lough, 62, was diagnosed with breast cancer in September 2021, she and her husband, Brian Lough, knew it would be a long journey. However, she had the support of not only her family but also her church, including Ella Stultz, who was inspired to raise \$1,000 for Franciscan Health Marie Canine Cancer Center Crawfordsville.

After her surgeon told her

that Franciscan Health Marie Canine Cancer Center Crawfordsville was the best cancer center around, Patty decided to go there for treatment and was glad she did. "We were very comfortable with the oncologist, nurses and staff. Everyone was so friendly, easy to talk to and always had a smile," said Patty. She also mentioned how the center is set up perfectly for consultations

and treatment with the private treatment area having recliners and warm blankets that sit in front of big windows looking out on a patio area with trees, plants and flower pots. "I can't say enough about how comfortable the cancer center is."

KAREN ZACH
Around The County

John Adam Dunbar was Lewis and Polly (Powers) Dunbar's third son and fourth child, born August 9th, 1828 in Clinton County, Ohio. John grew-up in Montgomery County, marrying Eleanor Burckhalter March 5, 1849, a few months shy of his 21st birthday. She was 17. John Adam's brother, William had married her sister, Sarah in February the year before in Hendricks County. The girls were daughters of Cason and Jane (Hill) Burckhalter. Cason Burckhalter sure was an interesting man, so gung-ho about

the Civil War, that he told the recruiter he was 44 (45 was the top limit) although he was 22 years older than that. He fought in the 30th Iowa Infantry from August to October 1862. Evidently, and likely wisely, he didn't reenlist!

Eleanor was born in 1832 and passed away in 1910, three years before John Adam who died in Washington County, Iowa 11 Nov 1913. They are buried in Sandy Hook Cemetery in Brighton with many oth-

Vector Control

Only one thing can ruin a beautiful summer day spent outside. Mosquitoes. These airborne, nagging insects can be controlled through various practices, both professionally and at home. While the average citizen may not have the tools to execute mass mosquito control protocols, there are small actions that can be completed at home that will reduce the prevalence of mosquitoes surrounding your domicile. But first, let's set some guidelines as to what vector control really is.

Per the CDC, vector control is defined as any method to limit or eradicate the mammals, birds, insects or other arthropods which transmit

THE GREAT MONTGOMERY COUNTY SCAVENGER HUNT 2022

1st 2nd 3rd Place Prize Awards

CURRENT CLUE

THE EARLY ROADS OF MONTGOMERY COUNTY WERE VERY BAD. SLUSH AND MUD GAVE WAY TO GRAVEL, AND THE GRAVEL WAS PAID FOR - IN PART - THROUGH TOLLS. IN 1882, THE COUNTY HAD 50 MILES OF THESE TOLL ROADS BUT BY 1909, THE COUNTY HAD 400 MILES OF GRAVEL ROADS. OFTEN, TOLL HOUSES WERE BUILT WHERE PEOPLE WOULD STOP AND PAY A TOLL FOR TRAVELING ON THE ROAD. TODAY, THERE IS AT LEAST ONE OF THESE KNOWN TOLL HOUSES STILL IN EXISTENCE. WHERE IS IT?

PREVIOUS CLUES

- CLUE 1 - WHERE WOULD THESE NAMES BE FOUND IN CRAWFORDSVILLE AND WHY WOULD THEY BE LISTED TOGETHER? ZEPHANIAH BALL, JAMES R. CARNAHAN, KAAC C. ELSON, SAMUEL B. FERGUSON, SMITH S. FRY, THOMAS W. FRY, JOHN P. HAWKINS, JESSE L. HOLMAN, LYCURCUS RALBACK, ROBERT SPIELMAN, SAMUEL C. VANCE, WILLIAM C. WILSON, JOSEPH M. WISHARD, AND A LOT MORE.
- CLUE 2 - A SHIP WAS SUNK AND HOSTILITIES BROKE OUT. HUNDREDS OF MEN LOST THEIR LIVES AND NOT LONG AFTER THE UNITED STATES WAS INVOLVED IN A WAR. ULTIMATELY, THAT LED TO THE ERECTION OF A MONUMENT RIGHT HERE IN MONTGOMERY COUNTY. WHAT IS THE MONUMENT, WHERE IS IT LOCATED AND NAME ONE OF THE MEN INCLUDED ON THAT MONUMENT WHO FOUGHT IN THAT WAR?
- CLUE 3 - FIND THE NAME AND PLACE OF A HOME WHICH SERVED AS AN INN AND HAD SEVERAL IMPORTANT VISITORS, INCLUDING WILLIAM HENRY HARRISON AND HIS MEN. THIS CLAPBOARD HOME EXISTED FOR CLOSE TO 100 YEARS IN OUR COUNTY AS A TRADING POST, TAVERN, POLITICAL AND CIVIC CENTER. IT WAS A PERFECT STOPPING PLACE BETWEEN TWO CITIES BEGINNING TO GROW AS IMPORTANT INDIANA CENTERS (LAFAYETTE AND TERRE HAUTE).
- CLUE 4 - IN A SMALL CEMETERY INSIDE THE COUNTY, A MAN HAS A UNIQUE WHITE-BRONZE TOMBSTONE WITH AN URN ON THE TOP. MUCH INFORMATION CAN BE FOUND THERE. HE DIED IN 1863 AND HE WAS 64 YEARS OLD. THERE'S ALSO AN UNUSUAL MESSAGE TO HIS FAMILY, "FAREWELL MY WIFE AND CHILDREN ALL, FROM YOU A FATHER CHRIST BOTH CALL; MOURN NOT FOR ME IT IS IN VAIN, TO CALL ME TO YOUR SIGHT AGAIN!" THERE ARE OTHER VERSES AND IMAGES. WHO DOES THE TOMBSTONE BELONG TO AND IN WHICH CEMETERY CAN IT BE FOUND?
- CLUE 5 - GEORGE FRUITS IS BELIEVED TO BE THE OLDEST SURVIVING LOCAL SOLDIER OF THE REVOLUTIONARY WAR. SOME HAVE FOUND PROOF AGAINST THAT BUT AN ADDENDUM TO HIS TOMBSTONE WOULD ARGUE THE POINT. WHERE IS HE BURIED AND WHAT DOES THE PLAQUE SAY IN REGARDS TO PROOF OF HIS AGE AND SERVICE.
- CLUE 6 - THERE WAS A YOUNG MAN IN OUR COUNTY WHO STUDIED SUICIDE FOR YEARS AND EVEN MANUFACTURED "MEDICINE" FOR THAT PURPOSE. HE PLANNED HIS OWN SUICIDE, AS WELL AS HIS FUNERAL, REQUESTING A BAND PLAY. HE HAS ONE OF THE TALLEST, MOST IMPRESSIVE TOMBSTONES IN THE COUNTY. WHO IS HE AND WHERE IS HE BURIED?
- CLUE 7 - EVER HEAR OF THE HORSE THIEF DETECTIVE ASSOCIATION? DO YOU REALIZE THE VERY FIRST ONE IN THE UNITED STATES (1845) WAS RIGHT HERE IN MONTGOMERY COUNTY? THE GROUP BEGAN IN JUNE 1845 AND MET SOUTH OF ELMDALE WITH THESE GOALS IN MIND: "SUPPRESS HORSE STEALING, HOME ROBBERIES, PICK-POCKETERS" AND OTHER CRIMES. THREE BROTHERS WERE QUITE INSTRUMENTAL IN BEGINNING THIS GROUP. WHAT WAS THEIR LAST NAME?

BBB Scam Alert: How To Spot A Phony Discount When Buying CBD Online

Cannabidiol (CBD), an active ingredient of cannabis, is now legal in many US states. BBB warns consumers to do their research before purchasing these products. BBB Scam Tracker received dozens of reports from frustrated consumers who thought they bought discounted CBD online but ended up with hundreds of dollars in credit card charges.

How the scam works:
You see an ad for CBD on social media or in an online search. A company is offering new customers a significant discount on CBD gummies. For example, one common scam offers a buy-one-get-one free deal. Unfortunately, if you order the discounted gummies, the scammers now have your credit card number.

Victims report being charged for extra products or an on-going monthly subscription to which they never agreed. One Indianapolis person reported losing more than \$130 after attempting to purchase CBD gummies from a fake website.

Other victims experienced being charged random amounts for products they never received.

Once scammers have your credit card information, cancelling is not easy! Consumers report

that scammers used numerous excuses to avoid issuing refunds. They claimed everything from trouble with the computer system to it being outside the cancellation window. Many victims also told BBB Scam Tracker that the charges continued even after they cancelled their subscription.

Tips for avoiding this scam:

- Research the company online. See what other people are saying about the company's free trials. Complaints from other customers can tip you off to "catches" that might come with the trial. Check the business's BBB

Rating and see if there are any alerts.

- Understand what happens after the free trial ends. Always read the terms of the offer before signing up. Numerous victims of the CBD free trial con reported not seeing the terms and conditions. This is a huge red flag. If you can't find them or can't understand to what you're agreeing, don't sign up.

- Be skeptical of celebrity endorsements. Resist being swayed by the use of a well-known name. Scammers often fake celebrity endorsements.

- Report losses to credit card companies. If you

pay with a credit card, you can dispute fraudulent charges. Keep an eye on your monthly statements and notify your credit card company of any suspicious charges.

For more information: Read BBB's special report on free trial offer scams. Learn more about scams on social media advertising.

Stay one step ahead of scammers by subscribing to BBB's weekly Scam Alert emails.

If you've been a victim of free trial offer scam, please report your experience at BBB.org/ScamTracker. By doing so you can help others to avoid falling prey to scammers.

Special Abilities

I've always been jealous of people who discover their talents early.

There was this kid in my middle school class named Karen. She drew still nature scenes better than anybody.

Any time the school needed pictures of flowers, vegetables, baked goods – or even background scenery for school plays – they called on Karen.

Sadly, she left school because the family moved back to their home state.

We often asked ourselves: Why did she have to leave? Did she branch out into other types of art?

Then, there was the big question: If she specialized in painting bread only, could she make a lot of dough?

A guy named Charlie could swallow air, then burp for up to 45 seconds (we timed him). He saved his most spectacular outbursts for the cavernous auditorium. The sound echoed throughout the seats, and students broke into applause.

Charlie even bet several people that he could recite the alphabet in one burp. He mostly won, but occasionally ran out of gas at "w."

Rix Quinn

Dan – who moved out of town in fifth grade – brought his pet parakeet Gertrude to show-and-tell. He asked the bird questions, and Gertrude replied with short answers.

Dan even entered her in the talent show, which Gertrude won by singing "Surfer Bird." But during that performance, a teacher noticed that the bird's mouth never moved.

It turned out the real Gertrude had flown away, and this bird was a silent imposter. Dan spent so much time training the parakeet, he became a first-rate ventriloquist.

The judges disqualified the bird imposter for singing. But, they awarded Dan a special recognition for Fowl Sounds.

which Patty and Brian Lough attends, is very close to Patty.

"I have known Ella since she was two years old. The sweetest little girl with a big smile and a contagious laugh," said Patty, who teaches pre-school to second grade Sunday school class. Ella, who is now a senior at North Montgomery high school and will major in business at Purdue University in the fall, was in Patty's first class. "Ella is an amazing woman that is very special to me," she said. "As soon as Ella found out about my cancer, she made me a cozy blanket to take to Franciscan Health Marie Canine Cancer Center Crawfordsville so I wouldn't get cold during the treatments."

When Ella heard of Patty's diagnosis, she had a very hard time with the news and wanted to help. As soon as she learned how well the center was treating Patty, she saw an opportunity to contribute.

"She has become an amazing influence in my life and someone I love dearly. She is important to me and has become my 'Aunt Patty,'" Ella said. "I wanted to find a way to do something for Patty, to show my appreciation for her... Brian talked to me about donating to the Franciscan Health Marie Canine Cancer Center Crawfordsville and told me all the ways they would be able to use the money. After hearing what the money would be used for, I knew 100% that I wanted to donate the

proceeds there."

Franciscan Health Marie Canine Cancer Center Crawfordsville knows cancer affects every part of a person's life, not just medically, and strives to be a support system in as many ways as they can for their patients. "The money donated to the Franciscan Health Marie Canine Cancer Center Crawfordsville stays 100% within our walls or for our patients," said Kathleen Nelson, director of Oncology Services. "We have been able to purchase some small equipment for our team to better serve our patients. We also use the money to assist patients in need with things such as gas cards, groceries and taxi services."

Inspired, Ella immediately went to work selling

bracelets to people in her church saying, "#loughstrong" and "Isaiah 43:2."

"The response from my church was astonishing. I think almost everyone bought at least one bracelet...Patty is loved by every single person who sits in our sanctuary pews," Ella said. "I think a community is important when it comes to supporting people who are ill or struggling because it helps build a support system. It allows people to come together and offer emotional, physical and spiritual support. Most people would consider my church a community, but the people in my church would consider us a family."

"So many people, especially the youth, are focused on what the

world can do for them," said Kathleen. "This young lady did the exact opposite! She took a friend's cancer diagnosis and gave it meaning and purpose to support her friend and encourage others to pay it forward."

The center has been serving the community since 2009, providing many of the same services as facilities in large cities, only in an easily accessible area with a hometown feel. A lot of these services are made possible by donations from people like Ella who want to honor their friends and family.

If an individual or an organization would like to donate and support cancer care right here in Montgomery County, please contact Jen Eberly, director of development

for Franciscan Health Foundation, by calling (765) 423-6812 or emailing jennifer.eberly@franciscanalliance.org.

If you'd like to make an appointment with or learn more about Franciscan Health Marie Canine Cancer Center Crawfordsville, please visit FranciscanHealth.org or call (765) 361-3000. The center is located at 1706 Lafayette Road in Crawfordsville, Ind.

Additionally, Franciscan Health Marie Canine Cancer Center Crawfordsville includes Franciscan Physician Network Oncology & Hematology Specialists, Niraj Gupta, MD, and Nibal Saad, MD, who will provide medical oncology and hematology services.

KAREN

From Page A1

er Dunbar relatives who went west or were born in the West, including his brother William and her sister, Sarah.

John Adam and Eleanor's first child was a boy and they blessed him with both gpa's names, Lewis Cason. I believe he was also the only one born in Indiana (near Colfax) on April 2, 1850. His nickname was Lute. He and his parents went to Washington County, Iowa in a covered wagon, three weeks on the road. With just twelve miles to go to their home, one of the horses died. Walking back to a home they had passed, John borrowed a horse and he returned it the next day as promised. The family stayed with his uncle, Dan Powers for a few months while they settled in. After the birth of their second child they went to Clarke County, Iowa several years where most of their family was born, then

back again to the Brighton area in Washington County. (thanks to some of this information on John Adam which was in Audrey Schroeder's Dunbar History and Dana and Mary Jo for sending things my way).

Lute was a farmer as well as doing some carpenter work. Passing away on the 3rd of February in 1940, he was married to Eliza Stacy, and they had four sons (John; Frank; Carl and Harry) and two daughters (Ellen and June and yep, she was born in June). When Eliza died, he married Jane Rine. His obituary states (love this) that he had 28 grandchildren and 28 great grandchildren being close to 90 at his death and buried at Hillcrest Cemetery in Brighton, Washington County, Iowa.

If you read about the first son, William (John Adam's brother) you know that he too went to Brighton, Washington

County and although I did not find a specific date for William going, John Adam's family arrived in Washington on 6 September 1853, selling their properties here and going west. According to William's children's birth places and dates, it looks like he may have gone about the same time as John Adam.

It seems like just about everyone had a Mary Jane and John Adam was no exception. His Mary Jane was born in Clarke County, Iowa on March 15, 1854. Now, how she got back to Indiana when the folks stayed in Iowa, not sure but she married John W. Bowers and they are buried back in the Bowers Cemetery near Colfax. They had two children, John William Jr. and Florence Emma who married Pete Fickle and they had two Fickle sons (William and John Bowers Fickle) and two Fickle daughters (Betty and Joan who

passed at age two). Mary Jane passed away May 26, 1944 from a stroke, which was a health problem running in the family.

Silas Marion was born the 4th day of February in 1856 and died 8 Nov 1913; he married Mary Jane Gordon and they had three sons (Charles, Roy and John Wesley) and three daughters, Ethel born and died 1898; Nellie and Gertrude. He is one of the few not buried in Washington County, but instead is in Clio Cemetery, Wayne County, Iowa.

Following him two years later on the 21st of April was George Oliver, who became a farmer and very active in the First Christ Presbyterian Church. He and wife, Julia Ann Rhine had seven daughters (Goldie, Sylvia, Leola, Julia, Olive, Nancy and Rose) and two sons (Glenn and Merle). He passed at age 83 and is buried in

Washington County in Elm Grove Cemetery.

Nancy Suzanne and Henry Archer "Archie" both died fairly young, although Nancy born 13 Nov 1861 did marry (James Risk) and had one daughter, Ethel before passing 1 March 1888. Archie was born 19 April 1868 and died in June of 1877 buried at Sandy Hook.

John Elza was born 28 Feb 1866 and passed away 6 Nov 1931 also buried in Sandy Hook. He was a farmer and truck driver. He and wife, Harriet (Taylor) had three sons (Floyd, Louis and Charles) and one daughter, Ora. He rests in Sandy Hook.

Robert William also a farmer was born 8 Jan 1864 died 11 Sept 1908 from a very severe case of jaundice and is buried at Hillcrest. He married Florence May and had three children in slightly over two years, Clarence (b-d 1890), Mary Jane

(another one) and Grace.

Charles Wesley, their youngest, worked in various areas of the insurance field and for a bit owned a restaurant. Born 22 Aug 1870 he passed away 26 April 1959 (buried at Hill Crest). He and his wife Emma Sheridan had no children.

As you can see, John Adam was a very handsome fellow (thanks to Lynne Ream adding his photo to FindAGrave). He was smart, honest and loved his nine children and 31 grandchildren (think that's right). Most definitely, he went forth and prospered in so many ways. RIP John boy!

VECTOR

From Page A1

disease pathogens.

A vector is any of the above mentioned animals that carry and transmit disease-provoking pathogens. While vector control is not limited to mosquitoes, mosquito control is the most frequent type of vector control. For mosquitoes, there are four main domains within vector control. Said four domains are anti larval measures, anti adult measures, protection against mosquito bites, and legislative control. As one can deduct from the names of these domains, anti larval measures tackle mosquito populations that have not been born yet, which is a more preventative protocol. Anti adult measures attempt to regulate already-existing mosquitoes that can still reproduce and spread pathogens. The last two domains are pretty self explanatory, as the third domain focuses on protection against mosquito bites and legislative control implements civic laws to regulate mosquito populations. Anti larval measures are comprised of

environmental, chemical, and biological controls. Anti adult measures, on the other hand, consist of space sprays, residual sprays, and genetic control.

The above graphic may look like a typical home, but in reality this space is a breeding highway for

mosquitoes. I'll be taking you through every potential breeding site for mosquitoes in this image that can be easily reversed. To begin, we see open trash cans and an uncovered boat right next to each other in the upper left side of the image. These two objects

may gather standing water after a rain, and mosquitoes only need a quarter inch of standing water to reproduce successfully. A simple boat cover and closing of the garbage can lids can reduce the prevalence of mosquitoes on your property. Moving down the image,

we see a clogged gutter system. Typically clogged with organic material and some water, gutters are another example of prime real estate for mosquitoes to breed. Regular gutter cleanings can eliminate this. We then move to pet food/water bowls, which

should be emptied as regularly as possible to mix the chance of mosquitoes breeding. On the rightmost side of the image, we see a neglected pool, pond, wagon, and tire swing. I'm sure you can already tell where this is heading. All of these areas can collect stagnant, standing water. On a similar front, all of these objects should be properly managed and emptied when necessary to void said items of potential breeding sites for mosquitoes. As for the neglected pool, the Montgomery County Health Department regularly does pool water testing, which is the first step to getting your pools back in order if they are on the lesser side of the maintenance spectrum.

As mentioned above, all of these at-home practices are relatively simple and can lengthen the amount of time you and your family can spend enjoying the summer months outside without the risk of vector borne illnesses. So, clean out your gutters and have a great summer!
