**THREE THINGS You Should Know:**

**1** McCormick's Creek State Park, which was severely damaged by the recent tornado, is open for limited use. The park's Canyon Inn restaurant is fully open but many park trails remain closed, and the campground will be closed through Oct. 1. Individuals with campground reservations are being contacted directly and given full refunds, and no new reservations for camping at McCormick's Creek will be accepted for arrival dates through the end of 2023. Volunteers who would like to help with park clean-up can sign up at <https://bit.ly/mccormicks-creek-volunteer>, and they will be contacted by Indiana State Parks staff in the coming weeks.

**2** Two members of the Trine University men's wrestling team have been recognized for their efforts in the classroom as Scholar All-Americans by the National Wrestling Coaches Association (NWCA). A total of 369 individuals competing at 88 different NCAA Division III institutions received awards for their accomplishments during the 2022-23 season. Representing the Thunder was junior Isaac Hawkins of Angola, Indiana, who is majoring in Psychology and classmate Joseph Langeman of Carmel, Indiana, who is majoring in Design Engineering Technology. NWCA Executive Director Mike Moyer praised the student-athletes, stating, "I am honored to recognize these outstanding individuals who have excelled not only in their athletic pursuits but also in their academic endeavors."

**3** Indiana American Water will conduct water main flushing in the Sheridan service area April 9 - 13, 2023 from 10 p.m. to 8 a.m. each day. The company conducts the annual maintenance program to assure high-quality water service and to help ensure fire hydrants are operational. According to Senior Operations Superintendent Dawn Beck, "Water main and fire hydrant flushing is an important part of a regular maintenance program for water distribution systems. Indiana American Water consistently meets or exceeds all drinking water standards." No interruptions in water service are anticipated as a result of the work. Customers may experience a slight drop in water pressure or temporary water discoloration while this program is underway. Customers should refrain from doing laundry during the time of day the flushing program is taking place in or near their neighborhood. If tap water is discolored, Indiana American Water recommends allowing several cold-water faucets to run for a short time until the water runs clear. Using more than one faucet allows the water to clear more quickly. Visit us online at <https://bit.ly/3TRsa0e> for more information on hydrant flushing. The water main flushing will be performed by Indiana American Water crews. They will be working out of trucks identified with the company logo. All employees will also have photo ID badges.

### Ask Rusty - Retired Public Servant Feels Government Pension Offset is "Unjust"

*Dear Rusty: I'm a retired firefighter and live in Ohio. I earned Social Security from my side employment, but the Windfall Elimination Provision (WEP) hit my Social Security very hard. My wife worked in the school system and earned a state "SERS" pension. I understand the WEP offset and that doesn't bother me as much as the fact that my wife doesn't get my Social Security benefits when I die - her state pension is above the monthly limit for her to receive my Social Security. I earned that benefit by working extra jobs and being away from my family, and it seems unjust that my benefits expire with me. Thanks for letting me vent. Signed: Retired Public Servant*

ASK Rusty  
Social Security Advisor

**Social Security Matters**

This article is intended for information purposes only and does not represent legal or financial guidance. It presents the opinions and interpretations of the AMAC Foundation's staff, trained and accredited by the National Social Security Association (NSSA). NSSA and the AMAC Foundation and its staff are not affiliated with or endorsed by the Social Security Administration or any other governmental entity. To submit a question, visit our website ([amacfoundation.org/programs/social-security-advisory](http://amacfoundation.org/programs/social-security-advisory)) or email us at [ssadvisor@amacfoundation.org](mailto:ssadvisor@amacfoundation.org).

survivor benefits are paid to all beneficiaries. I'm certainly not defending it, but I've researched why the GPO was enacted decades ago.

Historically, ever since spousal and survivor benefits became part of Social Security's benefit structure in the late 1930s, if a spouse also has their own personally earned SS benefit, any spousal/survivor benefit they also became entitled to was offset by their personally earned SS retirement amount. The prevailing opinion in the 1983 Congress was that because regular spousal and survivor benefits are normally offset by the spouse's own earned SS benefit, it was unfair that a spouse who had a "non-covered pension" didn't incur the same offset as those who had no such non-covered pension. Thus, GPO was enacted in 1983 to "equalize" how spousal and survivor benefits were paid. It is the GPO which will affect your wife's benefit as your surviving spouse because she earned her state pension while not contributing to Social Security.

To give you a more personal

perspective, if your wife had, instead, worked outside of the OH school system and was entitled to a full Social Security benefit based on her own earnings from which she contributed to SS, any survivor benefit she might become entitled to from you would still be offset by her personally earned SS retirement benefit. If her own SS retirement benefit was more than her entitlement as your widow, she would get no additional amount as your surviving spouse. Or if her own SS retirement benefit was smaller than yours, her survivor benefit would still be offset by her own benefit (her benefit would be paid first and only a supplement added to bring her payment to the higher amount she was entitled to as your widow). The purpose of the Government Pension Offset is to equalize how spousal, or survivor benefits are paid to those with, and to those without, a non-covered pension. Indeed, because the GPO only offsets the potential spousal/survivor benefit by 2/3rds of a spouse's non-covered pension, the GPO is actually a bit more forgiving.

*Dear Retired Public Servant:* The provision you deem as "unjust" isn't the Windfall Elimination Provision (WEP) which affects SS retirement benefits for those who also have a "non-covered" pension (a pension earned without contributing to Social Security); rather it is the Government Pension Offset (GPO) which also affects those who have a pension earned without contributing to Social Security. Though I know it is no consolation, your frustration about the Government Pension Offset (GPO) is shared by nearly a million other Americans in a similar situation. The GPO has been law since 1983 and is intended to "equalize" how spousal and

### Newswoman Tammy Bruce Shares What Can Change The Future Of America

By John Grimaldi

Fox News reporter Tammy Bruce says that in the days before the Internet and social media, politicians were used to being able to define reality based on what they told us. Now, however, there are cameras everywhere, she added, and they allow us to see for ourselves what really happens when events such as what happened on January 6, 2021, in Washington DC occur. As Tammy put it during a recent AMAC Better For America podcast interview, "Things got out of hand."

She told BFA host Rebecca Weber, CEO of the Association of Mature American Citizens, that "some people deserved to go to jail." But, she noted, footage of surveillance cameras reveals that no, it was hardly an event that could be compared with Pearl Harbor, as Vice President Kamala Harris described

it. Nor was it akin to World War II or the Holocaust, as others portrayed it. She said that the surveillance video her Fox News colleague Tucker Carlson obtained "reveals the absurdity of what is being said by Democrats who have relied on censorship throughout the last several years of social media so that they can try to control reality."

Tammy published an article recently on AMAC's website focused on a riot that provided a surprising reminder of how nefarious and disgusting corruption in the FBI really is. It took place in Atlanta, GA. She wrote, "35 people were detained and 23 people were arrested on domestic terrorism for a violent attack on the building site of a police training center. The police described a violent scene which unfolded in classic Antifa

### Know The Early Warning Signs Of COPD

(StatePoint) Chronic obstructive pulmonary disease (COPD) is a long-term lung disease that makes it hard to breathe. A leading cause of disability and death in the United States, more than 12.5 million people have been diagnosed, and millions more may have the disease without even knowing it. While there is no cure, knowing COPD's early warning signs can lead to earlier treatment and may prevent its progression.

The American Lung Association, funded with support from the Centers for Disease Control and Prevention, is sharing the following insights to help Americans recognize the warning signs of COPD and take action:

- Early Warning Signs of COPD

Not everyone has the same COPD symptoms, but some of

## OBITUARIES

### Michael J. Hart

November 7, 1953, Tuesday, April 4, 2023

Michael J. Hart passed away on April 4, 2023 at Franciscan Health in Crawfordsville. He was born on November 7, 1953 to Kenneth Hart and Cherry (Young) Myers in Crawfordsville.

Michael graduated from South Montgomery High School. He was an auto mechanic at various local dealerships.

Michael is survived by daughter, Christina Hart and a friend, Karen Bowling. He was predeceased by his parents, a sister, Cheryl McCreary, and a granddaughter, Ivy Blayke Davis.

Graveside services will be held on Monday, April 10, 2023 at 2:00pm at Blakesburg Cemetery in Fincastle with Pastor Terry Johnson officiating. Share memories and condolences at www.SandersFuneralCare.com.

## Meeting Notes

### Montgomery County Board of Commissioners Meeting April 10, 2023

#### Consent Agenda

Approval of Claims: 4-10-23 Docket and 4-7-23 Payroll

Docket is \$1,317,057.96 and Payroll is \$414,751.50.

#### New Business

Compensation for County Surveyor

Tom Cummins, County Surveyor, has submitted the Section Corner and Regulated Drain Certification Report in order to receive additional compensation as provided for in State Law. Total amount is \$2,800.

#### Proclamation

Public Safety Telecommunicators Week: April 9 to 15, 2023

National Public Safety Telecommunicators Week (NPSTW) is held annually during the second week of April to honor public safety telecommunicators for their commitment, service, and sacrifice.

NPSTW initially started in 1981 by Patricia Anderson of the Contra Costa County Sheriff's Office in California. In 1994, President William J. Clinton signed Presidential Proclamation 6667, declaring the second week of April as NPSTW. This week is a time to celebrate and thank our telecommunications personnel at the Central Communications Center who serve our community, citizens, and public safety personnel 24 hours a day, seven days a week.

#### Ordinance

Final Reading: An Ordinance Establishing Highway Department Policies for Road Maintenance and Snow Removal

Memo from the Highway Department:

The Highway Department Policies and Procedures were created to have a written policy of why and how the Highway Department maintains roads and conducts snow removal operations. The policy utilizes quantitative data to determine the roads that will receive maintenance.

#### Paving:

Cold mix and hot mix paving policy.

#### Cold mix paving:

We use a score sheet that has data including function class, PASTER Rating, Average daily traffic, Action Request, attractor, pot hole saturation, and hours of labor spent on the roadway. The data is put into the score sheet and the order of which we pave roads is determined by the score and that sets priority.

Hot mix Paving utilizes funding from a Community Crossings Grant from the State. The roads that are selected based on the following criteria: does it complete the "loop" around Crawfordsville, does it enter/ exit the county? and is it classified as a major or minor road? This data is input in to a score sheet to help prioritize those roads.

#### Chip seal:

Roads are chip sealed that have been cold mixed the prior year or it is needed for preservation.

#### Gravel road maintenance:

Covers when to grade and how roads are selected. The Department has 4 graders and it takes 5-6 weeks to complete an area depending on the weather. The Highway Department will not grade if moisture is abundant or an abundance is forecasted. The Highway Department determines gravel material to be applied by the following factors: gravel roads that connect major roadways, apparent traffic, # of homes, and if there are businesses on the roadway.

#### Culvert Replacement:

Road projects are evaluated depending on the application. Culverts are always replaced on a road project applying hot mix. In a cold mix road project, if the culvert has 10 year or less life expectancy, the county will replace it. If it's not on a project road, then the criteria are: dangerous, man made changes to drainage, topography, and the amount of water volume.

#### Speed Limits:

The Highway Department will conduct a traffic study and input collected data into Federal Highway Administration website to calculate the limit. Road type and crash data are also tools to determine a correct speed limit posting.

#### Snow Removal:

Policy states that paved roads are a priority. If we have more than five inches of snow and or drifting the graders will be sent directly to gravel roads. During snow events normal start time is between 3am & 5 am. (This is subject to change). The Highway Department uses a 25% salt mixture with sand for roadways. Straight salt is used in housing additions. Shifts are usually 14 to 16 hours. If weather is severe enough, 2-4 snow plow drivers will stay on shift for as long as necessary.

## Letters

### April is National Donate Life Month

Dear Editor:  
 The Children's Organ Transplant Association was founded in April 1986 when Bloomington, Ind. residents rallied around a toddler who needed a liver transplant. In less than eight weeks, the community raised more than \$100,000 to place the boy on the organ waiting list. But he died before an organ was found. Those community volunteers and his parents turned tragedy into triumph by using the funds to help others.

For more than 35 years, COTA has assisted thousands of families by helping to raise funds for a lifetime of transplant-related expenses. We have built extensive volunteer networks across the nation in an attempt to ensure no child or young adult needing an organ or tissue transplant is excluded from

a transplant waiting list due to lack of funds.

We need your help today to make sure that tragedies, like the one that was the catalyst in our founding, are not repeated.

April is National Donate Life Month. The U.S. achieved a historic milestone in 2022 with one million transplants performed. However, every day 17 people die in this country waiting for an organ transplant. Another person is added to the nation's organ transplant waiting list every nine minutes. One organ donor can save eight lives. Please go to www.RegisterMe.org and register to be a designated organ and/or tissue donor.

Rick Lofgren, President Children's Organ Transplant Association Bloomington, Ind.

### Writer Urges Caution on Senate Bill 37

Dear Editor,

Living in a county with an interstate highway running through it is both a blessing and a curse. My county is blessed with Interstate 70, which offers relatively easy commuting into metro Indianapolis. However, drug trafficking is anecdotally greater here than in counties without interstate highways.

Indiana counties with interstate highways passing through should therefore take advantage of such highways in every way possible. One example would be the food & beverage tax. Any county that has an interstate highway passing through would be foolish to NOT have a food & beverage tax. With three exits along I-70, our county receives an additional 1% tax on purchases made in restaurants at each of its exits. This extra 1% also applies to restaurants elsewhere in the county, as enjoyed by residents.

Henry County's food & beverage tax was initially allowed by the state legislature in 1987 to build the Indiana Basketball Hall of Fame. Other projects funded by the food & beverage tax include our Ivy Tech campus, the Arts Park Pavilion, Middletown Historic Society, Knightstown's iconic Hoosier Gym, and several rail-to-trails projects, among others. The net effect has improved our county's quality of life and quality of place, as well as business generated by these tourist destinations.

Senate Bill 37 is now up for consideration in the State House. If signed into law, SB37 will phase-out by 2045 all current food & beverage taxes across Indiana, "other than the stadium and convention building authority food and beverage tax and the historic hotels food and beverage tax." Translation: the Indiana Convention Center and Lucas Oil Stadium will continue to be subsidized by food and beverage taxes from Marion and its surrounding "doughnut" counties, as will the French Lick Springs Resort and West

Baden Springs Hotel in Orange County, but no other counties will be allowed a food & beverage tax! Is this fair to the rest of Indiana? Hardly!

15 Indiana counties and 19 Indiana municipalities currently benefit from the food & beverage tax. Not all of these have interstate highways passing through them. Should SB37 be signed into law, this would be yet another example of metro Indy getting to prosper at the expense of rural Indiana.

SB37 would force Indiana counties to give up one of the precious few economic development tools available at the county level. Having served on County Council for 12 years, I witnessed first-hand how Indiana's counties, especially rural counties, are being fiscally squeezed by Indianapolis. For example, the state particularly targets county health departments and county park departments, forcing them to raise user fees. As user fees can only be raised so much, county parks, for example, could benefit from a food & beverage tax. Henry County Memorial Park is a true gem, especially as compared with most other counties (not every Indiana county even has a county park). Our park hosts the Veterans Museum and Saddle Club, both of which benefit from the food & beverage tax - and generate tourist revenue.

Critics of the food & beverage tax blame mismanagement in one county, which never built a riverside convention center that was the basis for its 1989 implementation. However, in Henry County, the food & beverage tax committee that oversees the process, is a group of citizen volunteers appointed by the County Commissioners, County Council, New Castle Mayor, and New Castle City Council. They function well in terms of transparency and in their oversight of designated projects throughout the county.

# Construction Sector Sheds 9,000 Jobs In March As Low Unemployment Rates And High Number Of Job Openings Indicate A Lack Of Workers, Not Demand

Labor Shortages are Making it Harder for Firms to Replace Retiring Workers as Construction Officials Continue to Call for New Construction Education and Training Support and Immigration Reform Measures.

The construction sector shed 9,000 jobs in March, the first decrease since January 2022, even as the sector's unemployment rate fell and total number of job openings in the sector hit a near-record high, according to an analysis by the Associated General Contractors of America of new government data. Association officials said the industry was struggling to replace aging workers and pushed for new construction training and education support, as well as immigration reform measures to encourage more people into the industry.

"Despite a small dip in headcount, construction firms continued to post a

high level of job openings and raised pay more than other industries—two signs they still want to hire more workers," said Ken Simonson, the association's chief economist. "But the pool of unemployed, experienced jobseekers keeps shrinking for the construction sector."

Construction employment in March totaled 7,888,000, seasonally adjusted, a dip of 9,000 or 0.1 percent from the record high in February and the first decrease in 14 months. Nonresidential firms—comprising non-residential building and specialty trade contractors along with heavy and civil engineering construction firms—shed a statistically insignificant 1,800 employees in March. Employment at residential building and specialty trade contractors slipped by 7,000 or 0.2 percent. The unemployment rate

among jobseekers with construction experience declined from 6.0 percent in March 2022 to 5.6 percent, the second-lowest March rate in the 23-year history of the data. A separate government report released earlier this week reported that job openings in construction at the end of February totaled 384,000, just shy of the all-time high for February of 388,000.

Average hourly earnings for production and nonsupervisory employees in construction—covering most onsite craft workers as well as many office workers—jumped by 6.6 percent over the year to \$33.82 per hour. Construction firms in March provided a wage "premium" of nearly 19 percent compared to the average hourly earnings for all private-sector production employees.

Association officials said federal officials have

failed to boost investments in construction education and training even as they have boosted investments in a wide range of construction programs. They urged public officials at all levels to provide more support for construction programs in schools, apprenticeships, and other training programs. And they urged Congress and the Biden administration to allow more workers with construction skills to lawfully enter the country to work in the sector.

"Firms are struggling to fill high-paying construction positions while many schools continue to push students to go to college, amass student debt and hope for an office job," said Stephen E. Sandherr, the association's chief executive officer. "Exposing students and other future workers to construction will signal that it should be among the career paths worth considering."

# Carnegie Museum Seeks Art Entries For Its 2023 Community Art Show, The Magic Of Water

Call for artwork focusing on water in its various forms for The Magic of Water in Montgomery County exhibit.

The Carnegie Museum of Montgomery County is currently seeking artwork highlighting the diverse landscape of Montgomery County featuring the ever-changing ways water interacts with the environment.

The exhibit will display all forms of art celebrating water – from thunderstorms to swimming pools and streams to waterfalls! The museum welcomes entries of all types including print or digital photography and other digital arts, paintings, and three dimensional arts. Professional and amateur artists are welcome to submit work for consideration. Works will be

returned to the artist at the conclusion of the exhibit. Artists should send images of their art to Janna Bennett at [jbennett.carnegie@cdpl.lib.in.us](mailto:jbennett.carnegie@cdpl.lib.in.us) or call 765-362-4622 to make an appointment to show the work during a Zoom meeting or to make other arrangements to view potential art work. Submission deadline is July 15, 2023. A decision will be made by the curatorial team by August 1, 2023 on selection of art to be included.

The exhibit will be on display from August 26, 2023 to October 21, 2023.

The Carnegie Museum is open Wednesday through Saturday from 10 a.m. to 5 p.m. Admission to the museum is free, and the building is wheelchair and stroller accessible.

# FAITH

**INCLUDE YOUR INFORMATION** The Paper of Montgomery County is asking churches to send us church news by noon on Thursday. Information can be e-mailed to: [news@thepaper24-7.com](mailto:news@thepaper24-7.com)

The following is a listing of church services and various programs that organizations around Montgomery County have sent The Paper. If you would like to have your church information included in this free listing, simply e-mail it to [news@thepaper24-7.com](mailto:news@thepaper24-7.com).

## FAITH BAPTIST CHURCH

Sunday's schedule will include Sunday School at 9:30 and morning worship at 10:30 followed by a pitch-in dinner. After dinner there will be a special service in which Pastor Roe will step aside and Bro. Keith Harris will become the pastor. Meetings will continue with the Danfords Monday through Thursday at 7 each evening.

The public is invited to all the services anytime but especially during our revival with the Danfords. The location is 5113 S 200 W, Crawfordsville. Or just five miles south of Crawfordsville on State Highway 47. For more information call 866-1273 or visit [www.faithbaptistcville.com](http://www.faithbaptistcville.com).

## NEW MARKET CHRISTIAN CHURCH

The Sanctuary as well as the Drive-in Parking Lot are open for Worship held at 10:00 am. Tony Thomas will speak on "The Empty Tomb" His text is from Matthew 28:1-10.

SUNDAY SCHOOL begins at 9:00 am. COFFEE & DONUT FELLOWSHIP is at 8:30 am the first Sunday of each month. The next fellowship is May 7.

The worship service and Sunday school are open to everyone.

~The New Market Community Easter Sunrise Service will be held on Sunday, April 9, 2023 at 7:00 am at New Market First Baptist Church. An Easter breakfast will follow at all of the New Market churches. Everyone is invited to attend.~

## NEW MARKET FIRST BAPTIST

## Carnegie Museum To Hold Computer Gaming & Programming Exhibition

Come visit us for Coding & Castles: Computer Gaming & Programming Exhibition!

Join us for the 2023 Computer Gaming & Programming Exhibition, this year with CASTLES! Enjoy a variety of hands-on activities and demos presented by the Wabash College Computer Science Department. Encrypt secret messages, build circuits, watch the robot sumo wrestling tournament, and walk down memory lane with a

retro-gaming & retro-computer demo. Free!

The activities are aimed at ages 9 to adult, but younger kids are welcome to join in, and they can play in our Amazing Castle exhibit while you're here.

The Carnegie Museum is located at 222 S. Washington Street, Crawfordsville. Admission is free, and the museum is wheelchair and stroller accessible. The Museum is open Wednesday-Saturday, 10:00 a.m. to 5:00 p.m.

## Attorney General Todd Rokita Invites Hoosiers To Visit IndianaUnclaimed.gov To Hunt For Unclaimed Property This Easter

Attorney General Todd Rokita invites Hoosiers to hop on over to IndianaUnclaimed.gov and see what "egg-citing" treasures await you.

"Easter is a great time to spend with loved ones. So, why not find a little "egg-str" cash to have some fun. It's my office's commitment to return unclaimed property to Hoosiers," Attorney General Rokita said. "This Easter holiday is a perfect time to hop online and start searching for something every bunny will love." Last year, Attorney

General Rokita's Unclaimed Property Division returned \$62 million to Hoosiers, and you could be next. You never know what the Easter Bunny might leave in your basket.

Some property owners in the Unclaimed Property Division's database include such holiday-appropriate first or last names of Easter, Egg, Spring, Church, and Sunday. Don't put all your eggs in one basket though, make sure you also search for your loved ones or your business.

Test your "cluck" at the egg hunt — and check out

some of the types of property that might go unclaimed:

1. Unclaimed wages or commissions
2. Money orders
3. Safety deposit box contents
4. Savings and checking accounts
5. Refunds
6. Overpayments such as:
7. Credit card balances
8. Cell phone bills
9. DMV payments

Once unclaimed property is in its custody, the Unclaimed Property Division conducts an outreach effort to locate the rightful owners or heirs.

Individuals and/or businesses have 25 years in which to claim money once it is reported to the Unclaimed Property Division.

Just this year we've already returned over \$21 million to Hoosiers, with nearly \$800 million just waiting to be claimed.

So be sure to check IndianaUnclaimed.gov or text CLAIM to 46220 to search your name, family or business and have an "egg-cellent" Easter.

You can also contact the Unclaimed Property Division at 1-866-462-5246 or [updmail@atg.in.gov](mailto:updmail@atg.in.gov).

style: people wearing black clothing holding shields were throwing rocks, bricks, Molotov cocktails, and fireworks at property and building materials and police officers. Also typical of Antifa, 21 of the 23 arrested had come from out of state, as ABC News reported, 'Some from as far away as Utah, Colorado, Arizona, and New York. Two protesters charged are from other countries, one from France and another from Canada, according to police.' Additionally, 'one of the two locals who were arrested and charged with domestic terrorism was identified as Thomas Jurgens, a 'Staff attorney with the Southern Poverty Law Center (SPLC), the left-leaning anti-hate group, according to the State Bar of Georgia and his since-deleted LinkedIn page,' according to the New York Post."

During her BFA interview, Tammy noted that "it's not just the SPLC, but it's also the ACLU ... [at issue] is the question of where is the money

coming from? Clearly, it's a segment of extremist activists that are funding these liberal entities that [once] fought for freedom of speech and genuine civil rights. But now it's political extremism. Only two of [those arrested in Atlanta] were local. Everyone else came from out of state and in a few instances, from other countries. And that's what Antifa does. They import these people. These were not Atlantans rioting. These were people who move about as a team. And this is the kind of thing that the media really needs to make sure people know. During the George Floyd riots, two lawyers were arrested for throwing Molotov cocktails into a police vehicle. They were lawyers working at firms in New York City. They have been disbarred, thank goodness and they pled guilty to the charges. But then the Biden administration came in and reversed that and allowed them to plead guilty to lesser charges. So why would the Biden

administration intervene with two people who are lawyers who committed violence, who abused their licenses and their commitment to the law, making it easier for them to get lighter sentences, which they did?" It is almost as though, Tammy shared, "that these entities are working together to cause as much chaos and disruption as possible."

And besides the government's efforts to squash the truth, Tammy believes Americans can still save our country. To her, it's time the "National Republican Party and its leadership must step up." To her, "It's about states taking control locally where your voice is more heard more rapidly...and keeping control in that regard." And after seeing what DeSantis and other states have done in regard to issues like banning CRT and protecting your children, Tammy insists that "those must be templates for the federal government as well as for every other state in our union."

**COPD** From Page A1

the more common early warning signs and symptoms may include shortness of breath, a cough that may bring up mucus or phlegm, chest tightness, fatigue and reoccurring lung infections. People may think these symptoms are because of aging, smoking or being out of shape and become less active to avoid experiencing them. These signs and symptoms shouldn't be ignored. Speak with your healthcare provider if you experience any of these symptoms and discuss any activities you are avoiding due to breathing difficulties.

**•Risk Factors and Diagnosis**  
Anyone can develop COPD, but people aged 40 or older and those who smoke or used to smoke are at higher risk. Cigarette smoking is the leading cause of COPD, however 1 in 4 people with COPD never smoked cigarettes. Secondhand smoke, air pollution, workplace exposures to dust, fumes and chemicals, and a genetic condition called alpha-1 antitrypsin deficiency (AATD) are also causes and risk factors for COPD. People are often diag-

nosed at later stages of COPD when the disease has progressed because they delayed sharing their early symptoms with their healthcare provider. Everyone with risk factors and those experiencing early warning signs should talk to their healthcare provider about any breathing issues. It's especially important for women to do so. Because COPD has been historically thought of as a "man's disease" or an "old person's disease," women are sometimes misdiagnosed or receive a delayed diagnosis. But overall, more women are affected by COPD than men and the death rate is higher in women. In addition, women tend to develop the disease at a younger age.

To diagnose COPD, the healthcare provider will evaluate symptoms, gather a complete health history, conduct a health exam and perform a pulmonary function test called spirometry. The results of the spirometry test can determine if you have COPD.

**•Lifestyle Changes**  
In addition to treatment, certain lifestyle changes may make a difference, as patients living with COPD

know firsthand. After being diagnosed with stage 2 COPD in the wake of a COVID-19 infection, Bob F. partnered with his doctor and started monitoring his breathing at home and leaned into exercise. His hard work has paid off, with his last pulmonary function test showing that the disease has not progressed, and he is in better overall shape than before.

"Most of the advice you should follow is no different than what doctors tell us all. Eat right, exercise, sleep, drink plenty of water, manage your weight and don't smoke. If you do these things, you may slow the progression of your COPD," says Bob.

But you shouldn't wait until a COPD diagnosis to make these changes. Lifestyle changes like quitting smoking, avoiding secondhand smoke and reducing your exposure to air pollution may reduce your risk for developing COPD. If you are experiencing shortness of breath or other respiratory symptoms, do not delay talking to your healthcare provider about your symptoms or COPD risk factors. For more information about COPD, visit Lung.org/COPD.
